## INIM's cost-effective approach to intrusion detection

Bluvista is a convenient way of rounding off an intrusion control system which requires performance and reliability at a competitive price. INIM offers Infrared detectors, dual technology detectors and beam detectors for outdoor protection.

### Infrared detectors

INIM puts forward a line of Passive Infrared Detectors especially designed for residential applications.

The motivating price/performance ratio makes these detectors ideal for applications where cost is a key issue and performance and reliability cannot be overlooked.
