

EFFIO-E

SONY's newest DSP

Enjoy 650 TVL resolution cameras using SONY's latest 960H CCD and SONY Effio-E DSP.

The world of CCTV is moving towards surveillance solutions with- continuously increasing resolutions. A comprehensive "Higher resolution" surveillance solution empowers installers and allows them to both reduce the number of cameras used per site and improve the video quality, allowing for better details in the video.

By using SONY's latest 960 horizontal pixel CCD with EFFIO-E DSP Provision ISR's Effio E series of cameras provide superior image quality with a resolution of 650TVL. Effio-E cameras provide additional advanced features, including a full OSD menu, 2D-DNR, Color Rolling control, HLC and more...
