

Plug & View

As part of Provision-ISR's long-lasting effort to address the common users and offer a camera with extra-ordinary capabilities together with never seen configuration and operation simplicity we have come up with the perfect solution: Plug and View Cameras.

Quick Set-up – Easy to Use – Smart and Cost Effective

Provision-ISR's advanced Plug & View monitoring cameras are the ideal solution for monitoring your home, office or business both day & night.

P&V cameras provide 1 mega-pixel image quality with advanced H.264 video compression to achieve a high quality video streaming quality.

Provision-ISR innovative "Cloud - Plug & View Technology" empowers you to easily connect to your camera and watch it from anywhere and at any time directly from your Smartphone or Tablet using Provision-ISR's free app "Provision PnV" (For iOS & Android). One of the greatest news that this camera is bringing: No more messy network, video and command cables. After installation is finished, the only cable that the camera will need is power.

Pan/Tilt Cameras – "PT" Series

The Pan/Tilt cameras were designed to offer the greatest flexibility for installing and positioning of the camera. The camera's great features makes it the perfect choice for remote monitoring. These includes:

- Plug and View interface
- 1MP Resolution
- H.264 Video Compression
- 150Mbps WiFi Connectivity (802.11n)
- Motion Detection
- Day and Night Vision with ICR and IR LEDs
- 2 Way Audio (Built in Microphone & Speaker)
- Micro SD card local storage
- iOS/Android Support
- Motorized Pan/Tilt (355° Pan/120° Tilt)
- Touch Gestures for camera control

Fixed Cameras – "F" Series

The fixed cameras were designed to offer a cost effective solution while keeping all the important features that the PT cameras has to offer. These includes:

- Plug and View interface
- 1 MP Resolution
- H.264 Video Compression
- 150Mbps WiFi Connectivity (802.11n)
- Motion Detection
- Day and Night Vision with ICR and IR LEDs
- 2 Way Audio (Built in Microphone)
- Micro SD card local storage
- iOS/Android Support

Plug & View

as Simple as it sounds...

Plug

Plug the camera to power outlet and to router which is connected to the internet

Our PnV camera uses the latest cloud technology- (plug & view) and allows you to easily connect the Camera to your local wireless network avoiding network configuration and SSID settings.

Install App

Plug the camera to power outlet and to router which is connected to the internet

Our PnV camera uses the latest cloud technology- (plug & view) and allows you to easily connect the Camera to your local wireless network avoiding network configuration and SSID settings.

View

Congratulations!
